

# Renewables East

## *Feed in Tariff - The real potential for renewable energy support?*

Churchill College, Cambridge, CB3 0DS

Wed 3 March 2010

9:30 -4:30 including lunch

The event is designed to raise the profile of technologies applicable for FIT Support. To help the regional businesses understand the opportunities for business growth and the wider region to understand how it can benefit from renewable energy

The feed in tariff (FIT) is potentially one of the best environmental policies that the government has launched. This exciting and informative event will include presentations and discussions from selling your renewable electricity, investment structuring, asset management to understanding the finances.

### ***Speakers include:***

Stephen De Souza, Head of Renewables Finance Incentives - DECC  
Miguel Mendoca - World Future Council  
Peter Rolton - Rolton Group  
Philippe Wolfe - Director of Ownergy

Space for 15 Exhibitors
